Traditional values with progressive care

Vale Veterinary Group has a proud heritage in Mid and East Devon – our founding Centres have provided care to the animals of Tiverton and Cullompton since the early 1900s. Combining expertise in 1964, the practice then expanded to cover the Exe, Culm and Otter valleys, evolving into Vale Veterinary Group thirty years later when additional branches were opened in Uffculme and Whimble, the latter being superseded by our new Honiton Centre, opened in 2011.

Experienced staff, personal service

We now have 20 vets, each bringing unique experience and expertise, ably supported by highly trained nursing and reception teams. Our practice continues to invest in premises, equipment and training in order that we maintain our provision of veterinary care and customer service to the very highest standards. Above all we strive to provide a service built on honesty, integrity and compassion.

24 hour emergency care from your vet

We believe that in an emergency, the best care is provided by the team who already know your pet, in a place that both you and your pet are familiar. This is why we see all emergencies ourselves, at our main centres.

www.valeveterinarygroup.co.uk

Professional care with a friendly face

Fully qualified and registered Veterinary Surgeons and Veterinary Nurses to care for your pet during their entire stay.
